

Orchestrating a brighter world

NEC

DT820 IP Desktop Telephones

NEC sets the standard for easy to use phones with the DT820 IP telephones - ideal for almost any work environment.

At a Glance

- Choice of two DT820 IP models, either 6 button or 8 button self-labeling
- User friendly interface makes both ideal for public and business usage
- Affordable and cost effective phones for business users
- Both models are software upgradeable, eliminating the need for new hardware

Overview

The DT820 IP desktop telephones--the 6-button and the 8-button Self-labeling, are a cost-effective option for standard business users as well as a great choice for use in building lobbies, public spaces, and contact centers. The 8-button self-labeling phone can be upgraded to 32 line buttons, making it ideal for almost any work environment; in fact, the NEC DT820 standard use self-labeling desktop telephones are upgradeable to support more extensions and to network, making them both enterprise and call center friendly. Power is supplied to the DT820 phones via PoE (Power over Ethernet).

DT820 interfaces are designed to improve the overall user experience while remaining intuitive – with no extensive training needed. At-a-glance notifications include new voice messages, missed calls and the telephone user's current presence status. Both the DT820 6-button as well as the

8-button self-labeling are supported on the UNIVERGE® SV9000 and SV8000 Series communications platforms.

With two models to choose from, you can select an affordable telephone with features that best fit your organizational needs.

Software Upgradability*

With the DT820 telephones, we are providing a better way to upgrade your phones in the field, with software upgradability. Through licensing, the DT820 6-button and 8-button self-labeling models are able to upgrade their network support from 10/100 to 10/100/1000. And on the 8-button self-labeling, you can increase the line presence from 8 to 16 to 32. No longer is there any need to stock or purchase new hardware.

* On the UNIVERGE SV9300 and UNIVERGE SV9500 systems this license option is not supported.

The DT820 6-Button Telephone

This 6-button phone offers a familiar user interface. It includes a black and white display, headset jack and fixed line, and feature keys such as conference, transfer and hold.

The DT820 8-Button Telephone

The DT820 8-button self-labeling phone includes the features and functionality of the 6-button model plus helps lower the cost for any adds/moves/changes that are required in a normal business environment. The line presence can also be increased from 8 to 16 to 32.

The DT820 IP Desktop Telephones - a cost-effective option for standard business users plus a great choice for use in all other areas of your business.
